

Corzine and Christie on the issues that matter to us

GET THE FACTS

Israel:

As a US Senator, Jon Corzine visited Israel four times and boasted a 100% pro-Israel voting record in the US Senate. As our Governor, he led a trade mission to Israel and made New Jersey one of the first states in the country to divest its public funds from any foreign company with ties to Iran.¹ Chris Christie has no experience in implementing any type of economic, educational or cultural collaborations between Israel and New Jersey.

Gun Control:

As Governor, Jon Corzine introduced a new gun control package that would ban .50 caliber guns, increase penalties for gun trafficking and mandate life in prison for anyone who attempts to assault a police officer with a firearm.² Chris Christie has received nearly \$100,000 in contributions from the National Rifle Association and he opposes new gun safety laws.³

Reproductive Rights:

Governor Corzine and his running mate, Senator Loretta Weinberg, support a woman's right to choose and have both received a 100% rating from the Planned Parenthood Action Committee of New Jersey. Chris Christie has stated that he is anti-choice and has been endorsed by anti-choice leaders and organizations. Christie has proposed to allow insurers to refuse to cover prescription contraceptives.⁴
